

Help WMC Achieve Its Goals With A Generous Donation!

Since its inception in 1993, the Women's Mining Coalition has provided members of Congress and other policy makers with facts about the modern mining industry and the importance of mining to the U.S. economy and our daily lives. WMC members continue documenting the industry's commitment to resource stewardship and environmentally responsible mining.

WMC members deliver the message that a strong domestic mining industry is vitally important to America, that jobs all across the country depend on mining, and that today's regulations and modern technology ensure state-of-the-art environmental protection at U.S. mines. WMC members provide policy makers with first-hand information about the technological advancements and environmental stewardship of today's mining industry.

Through your generous tax-deductible donation, you can assist the Women's Mining Coalition in preserving and promoting the tremendous economic benefits of mining to all Americans. You may send your donation to: Women's Mining Coalition, P.O. Box 10101, Reno NV 89510-0101. A receipt will be forwarded to you upon request, complete with the WMC employee identification number.
